

Impact Statement

VON Windsor-Essex, April 2021

All Star Gaming Centre Funds provide Supportive Housing Program enhancements.

VON Supportive Housing and SafeGuard support.

Every day, VON staff and volunteers see the impact charitable dollars have in supporting our community. As a charity, VON Windsor-Essex relies on fund raised dollars and All Star Gaming funds to enable us to continue our essential home nursing and support programs for our community's most vulnerable.

VON's Supporting Housing program is one example of how All Star Gaming proceeds have a life changing impact on the clients we serve. This program enables the frail & elderly to "age in place" by providing personal support, homemaking and attendant services in a supportive housing environment by VON Personal Support Workers.

This program supports clients who can no longer manage safely in their own homes but with the provision of individualized service, can continue to live independently with on-site assistance & 24 hour availability.

All Star Gaming funds allow VON to provide

Safeguard units for all of our clients. The SafeGuard units are an amazing addition to our Supportive Housing program as it keeps us in contact with the clients 24/7 in the event of an emergency.

Josie, Team Lead for the Supportive Housing Program shares the relief and assurance families have when admitting their loved ones into the program. "Having SafeGuard units for all of our clients makes the client, and their families feel safe and secure. With 24/7 monitoring, clients are assured that there is someone available immediately should they need support or assistance."

**Thank you, All Star Gaming,
for your continued support in
keeping VON clients safe!**
